ReactJS, NextJS, ExpressJS, Bootstrap, Tailwind, MUI, NodeJS

#### OTHER TOOLS

REST API, Git/Github, AWS, Less/Sass, Framer Motion, Docker, AWS, Figma, GraphQL

### Education

#### B.Tech in Mechanical Engineering,

*MLV Textile & Engineering College / RTU*

2015 – 2019

CGPA - 7

### Interest

Travelling, Singing, Reading, Photography

### Experience

#### Software Developer, *DePronto Infotech*

July 2022 – present | Remote

- Significantly improved website load times, boosting mobile Google PageSpeed Insights scores from 55 to 85 and desktop scores from 60 to 90, through optimized front-end development utilizing ReactJS, HTML5, CSS3, and JavaScript.
- Delivered responsive, high-performance web applications ensuring consistent user experience across Chrome, Firefox, Safari, and Edge.
- Effectively managed version control and facilitated teamwork using Git, CodeCommit, and JIRA, while also mentoring junior developers on ReactJS and best coding practices, resulting in a 25% increase in team productivity and 15% reduction in code integration issues.
- Led code reviews to enforce coding standards and best practices, leading to a 15% improvement in code quality and fostering a culture of continuous learning.

#### Research Analyst, *Arcgate Technologies LLP*

January 2021 – April 2022 | Udaipur, India

- Managed and curated content for a leading food delivery platform, ensuring accuracy and a user-friendly experience for customers. Edited and optimized food item images to enhance visual appeal and ensure consistency with platform guidelines, leading to a 15% increase in click-through rates on food items.
- Ensured all content met DoorDash's platform guidelines and delivered high-quality results, contributing to a 20% reduction in content-related errors.

### Projects

#### ICICI Pru iProtect Smart

- Drove optimization of India's leading life insurance website, achieving a 30% reduction in page load times and 10% server load reduction through performance tuning, limiting API calls, and implementation of scalable microservices to enhance system efficiency.
- Developed and integrated secure eKYC authentication, ensuring robust data protection and regulatory compliance. Utilized JWT for data encryption and implemented secure API endpoints to safeguard sensitive user information during onboarding and application form pre-filling. This resulted in a demonstrably secure and compliant eKYC process.

#### ICICI Return of Premium

- Directed cross-functional project teams, fostering effective collaboration and communication between development, QA, and product departments to deliver successful software projects.
- Improved user experience and flow, contributing to key business objectives and driving a 10% increase in user engagement.
